Apprentice Assignment
March 9th 2023

In class, we will watch The Apprentice. In each episode there is a task assigned to both teams to complete. The team that executes the task that yields the highest profit wins. Both teams have different strategies in the task.

Task: You will create an **infographic** outlining strategies you would implement to the task in the episode. You need to include a minimum of 2 different strategies to the task and ensure you justify your response with **evidence**. You must research and provide facts to prove your evidence and strengthen your argument.

Remember, your strategy must be better than the 2 teams in the show. You can use their numbers as a comparison to your strategy and show that your strategy will yield a higher profit. Any information found on the internet must be put in your own and **must be referenced**. You will receive a mark of 0 for any plagiarized work. **Do not** copy and paste from the internet.

Infographic: a visual representation (using images, words, charts, tables, etc) of a (complicated) subject

- There are a number of companies that provide free templates (you won't have as much choice - but they are free!)
- You can then edit the template as needed
- Can use: Google Drawing or an Infographic generator such as Piktochart(free) or Photoshop or Canva

Due: TBD

Submit: via google classroom

Any late assignment will be deducted 5% per day

Make sure you read the instructions carefully. I will not be accepting any excuses for late assignments especially if the answer is, "I didn't know..."
