

## BTT101 – Short Webpage

**Task:** You will create a simple webpage about yourself using the tools you've learnt from the 2 Khan academy lessons: Intro to HTML & Intro to CSS. You will include a picture that reflects you and a paragraph explaining why that picture reflects you. Also, include 3 characteristics of yourself in the form of a list and explain why you feel these characteristics best describe you.

### Instructions:

1. Open a notepad
2. Write your code neatly inside the notepad
3. Save the notepad with the extension .html (For example, click save as, type Student.html, and press save)
4. This will save it as a website
5. Also save your website as a txt. File (a notepad file) so you can edit your website. Every time you edit your website you will have to re-save your website as an html
6. Upload it to google classroom as an attachment in the assignment link

### Website Check List

- Images \_\_\_\_\_
- A list \_\_\_\_\_
- Different CSS Styles \_\_\_\_\_
- Change colour of words or background \_\_\_\_\_
