

Exam Review Topics

- Algebraic Expressions
- Substitution/Elimination
- Solving problems using linear systems
- Midpoint & Length of a line segment
- Equation of a circle
- Multiply Polynomials
- Special Products
- Finding GCF
- Factoring polynomials
- Factoring quadratic expressions
- Complete the Square and put into vertex form
- Solve quadratic equations by factoring & using quadratic formula
- Similar Triangles
- Tangent, Sine and Cosine Ratios
- Cosine Law & Sine Law

Exam Layout

Section	Question Type	Marks
1	Full Solution	/24
2	Short Answer	/16
3	Problem Solving (2 Questions)	/20
		/60
