

Lester B. Pearson C.I.
ICS20
History of the Internet Assignment
September 15th 2017

Task: Create a flow chart/timeline of important dates and events that took place with the internet. Cover all major topics from the 1950's to the present. Your timeline can be in the form of a PowerPoint, website, or anything you find to be creative.

Due: September, 18th 2017 @ 11:59pm via google classrooms

Things to note:

- Do not copy directly from the site. That is plagiarism. Everything should be in your own words
- Be creative in how you present your timeline
- Ensure facts are accurate
- Include all important events

Good Luck!
