

Software in-class assignment

We have been discussing software. Software is an important part of your daily tasks when using a computer.

Task: What are your top 3 software applications that you believe are important and a computer cannot be without? Why is that software important to you?

You will write a 1 page response and submit it via google classrooms.

Items to include:

- Introduction
- 3 different software types
- Description of each software type
- Why is this software important to you?
- Detailed explanation
- Must have separate paragraphs

Due: Wednesday, September 20th 2017 @ 11:59pm

Evaluation: /5
