

Microsoft Power Point Assignment – Technology In the classroom

Your Goal:

Create a PowerPoint presentation on technology in the classroom. Research and pick any form of technology that you feel will be beneficial in the classroom. You will create a PowerPoint presentation explaining the type of technology you chose and how it will benefit the classroom. Some examples of technology in the classroom are cell phones, laptops, tablets, etc. Feel free to use any other types of technology that you feel will work well in class.

Things to include:

- Min of 6-10 slides
- Picture of technological device
- Explanation of technological device including any facts, evidence, important info, etc.
- Include transitions, animations, etc.
- Be creative with your presentation
- Bullet points and **not** paragraphs in your slides
- Include other pictures
- Include at least one chart
- Include at least one video
