

The assignment is meant to use some of the work we've done in the course until now (skills, traits, intelligences, etc...) This assignment will require you to make a short report on a specific job. You'll need to pick that job first (based on your interests). It can be anything you want. You must tell us about that job, what they do, educational requirements, money etc...

1. Once you have the job selected you need to think about what the skills and traits are of a successful person in that kind of work. Then consider what skills and traits you have that will help you with that job. Be sure to tell me how your skills or traits would be important. Have 3 traits and 3 skills in your power point. **Example:** I'm a good listener, which is an important skill in being a psychologist because so much of my job would require me to listen to people's problems.
2. Consider one weakness you have that would be a problem for whatever career you picked. How would that weakness be a problem? What can you do about it?
3. In your report you must ensure that you answer the following questions:
 1. What career do I want?
 2. What is a brief description of the job?
 3. What is the Salary/Pay?
 4. Tell me a job path you can take within that career
 5. A weakness you'll need to be cautious of that may affect you in this career and something you can do to diminish it.
 6. What skills, traits, multiple intelligences and/or strengths you currently have that will help you succeed in that career.

Criteria	Level 4 (80%-100%)	Level 3 (70%-79%)	Level 2 (60%-69%)	Level 1 (50%-59%)
Knowledge and Understanding	Report has gone beyond what is expected for job choice requirements (what it is, educational requirements, money etc)	Report has explained what is expected for job choice requirements (what it is, educational requirements, money etc)	Report has somewhat explained what is expected for job choice requirements (what it is, educational requirements, money etc)	Report has explained little of what is expected for job choice requirements (what it is, educational requirements, money etc)
Application	Job choice and traits are very reflected upon and very clearly connected to multiple intelligence choices Weaknesses have been very clearly stated and solution is very appropriate and plausible	Job choice and traits are reflected upon and clearly connected to multiple intelligence choices Weaknesses have been clearly stated and solution is appropriate and plausible	Job choice and traits are somewhat reflected upon and are connected to multiple intelligence choices Weaknesses have been stated and solution is somewhat appropriate and plausible	Job choice and traits are somewhat reflected upon and are somewhat connected to multiple intelligence choices Weaknesses have been stated and solution is sort of appropriate and plausible
